

# LOWERGY

## SCHEMATIC ILLUSTRATION

### SAVINGS (INCLUDING VAT) WITH RENSLI FUEL ADDITIVE

The following values and assumptions form the basis of the above graphic:  
- Fuel consumption **before additive**: 0,7Lit/mile - Fuel price: £1.50 (incl VAT) - Savings through Ferox additive: **10%**

The following values and assumptions form the basis of the above graphic:  
- Fuel consumption **before additive**: 0,7Lit/mile - Fuel price: £1.50 (incl VAT) - Savings through Ferox additive: **13%**

The above general illustration is based on fully realistic assumptions/parameters. However, they should be verified/adapted to each current vehicle. The exact percentage of fuel savings depends on several variables and can be both slightly larger/slightly smaller. Individual testing is required on a case-by-case basis.
